

IV. CARRIER NOTIFICATION

Prior to launching service in Illinois, Teligent contacted as many IXC's as possible regarding the opportunity to provide toll service to Teligent customers. In addition, any IXC that wishes to serve Teligent customers is asked to submit to Teligent an Access Service Request ("ASR") form for each Teligent switch to which it desires access. Once Teligent receives and processes an IXC's ASR, that carrier is added to the list of IXC's available for customer selection. If a customer requests access to an IXC not on the list, Teligent will contact the requested IXC on the customer's behalf. IXC's are informed that the Teligent switches available for exchange access service are identified in either NECA Tariff No. 4 or Teligent's Tariff FCC No. 3.

V. CUSTOMER NOTIFICATION

Since Teligent has already implemented the aforementioned 2-PIC selection process in Illinois, Teligent customers in the State have always had the option to select their carrier of choice for intraLATA toll calls. In the event that an existing Teligent customer has not had the opportunity to select a carrier for intraLATA toll calls under Teligent's full 2-PIC methodology, Teligent will provide notice to the customer of the availability of intraLATA toll dialing parity by means of a one-time mailing. A draft copy of this mailing is attached as EXHIBIT 1 hereto. This mailing will be sent by Teligent upon Commission approval of Teligent's Petition. For customers who change their PIC in response to this mailing or otherwise, Teligent will provide those customers with a confirmation notice of their new PIC selection.

VI. NETWORK INFORMATION

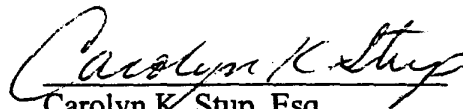

Teligent will route all originating intraLATA traffic to the carrier designated by the Teligent customer and will only block traffic at the request of the customer, in compliance with state and federal regulations. Requests from carriers to block traffic or to remove customers

from their network will not be honored. Calls that cannot be completed to a carrier will be routed to a call-busy signal or an intercept announcement.

VII. CONCLUSION

Teligent respectfully request that the Commission approve its plan for providing intraLATA toll dialing parity, and that such approval be granted not later than June 22, 1999, in accordance with the terms of the FCC Toll Dialing Parity Order.

Respectfully submitted,

Carolyn K. Stup, Esq.

Assistant Secretary

APR 22 1999

 Docket Room

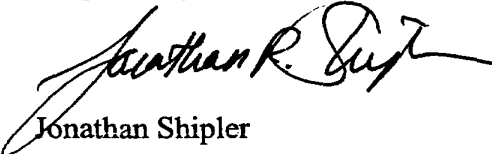

*Re: Teligent, Inc.'s IntraLATA Toll Dialing Parity Plan, as Required by the
Recent Federal Communications Commission Order*

Dear Mr. Heinemann:

Enclosed herewith for filing, please find Teligent, Inc.'s ("Teligent") intraLATA toll dialing parity plan, pursuant to the Federal Communications Commission's recent order.⁹ That order required all carriers to file with each state commission a copy of its intraLATA toll dialing parity plan by April 22, 1999.

An additional copy of this filing is enclosed. We ask that it be date-stamped and returned in the envelope provided. Should any questions arise regarding this filing, please do not hesitate to contact the undersigned at (703) 762-5284.

Respectfully submitted,

Jonathan Shipler

⁹ In the Matter of the Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, *Order*, CC Docket No. 96-98, NSD File No. 98-121 [rel. March 23, 1999].

TELIGENT, INC.
DIALING PARITY PLAN

I. OBJECTIVE/PURPOSE

In compliance with the Federal Communications Commission's recent IntraLATA toll dialing parity order,¹ Teligent, Inc. ("Teligent") files its plan for implementing intraLATA equal access in areas of the State in which it is authorized to provide service. Under the plan, Teligent's customers will be able to choose an interexchange carrier ("IXC") from a list of IXCs that are Teligent access customers. The customers' intraLATA toll calls will then be routed to the chosen IXC automatically, without the use of access codes.

II. IMPLEMENTATION SCHEDULE

Prior to launching service in a state, Teligent notifies as many IXCs as possible regarding its planned service launch and files an access services tariff, setting forth the rates, terms and conditions of its exchange access service offerings.

III. CARRIER SELECTION PROCEDURES

Upon launch of its services, Teligent implements a 2-PIC carrier selection methodology within the State. With the 2-PIC methodology, customers are able to presubscribe to one IXC, including Teligent, for interLATA toll calls and to presubscribe to the same or a different IXC for intraLATA toll calls. Customers are informed of the opportunity to choose both an intraLATA and interLATA PIC. At the customer's request, Teligent will provide a list of IXCs that are available for PIC selection. That list will be presented in a competitively neutral manner.

Customers who do not affirmatively choose an intraLATA toll carrier will be identified within Teligent's system as "no-PIC." Until making an affirmative intraLATA toll PIC selection, these customers will be required to dial an access code in order to place intraLATA toll calls.

¹ In the Matter of the Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, Order, CC Docket No. 96-98, NSD File No. 98-121 [rel. March 23, 1999].

IV. CARRIER NOTIFICATION

Prior to launching service in a state, Teligent contacts as many IXC's as possible regarding the opportunity to provide toll service to Teligent customers. Interested carriers are asked to submit to Teligent an Access Service Request ("ASR") form for each switch to which it desires access. Teligent lists its switches available for exchange access service in either NECA Tariff No. 4 or Teligent's Tariff FCC No. 3. Once Teligent receives and processes an IXC's ASR, that carrier is added to the list of IXC's available for customer selection.

*Re: Teligent, Inc.'s IntraLATA Toll Dialing Parity Plan, as Required by the
Recent Federal Communications Commission Order*

Dear Secretary Cottrell:

Enclosed herewith for filing, please find Teligent, Inc.'s ("Teligent") intraLATA toll dialing parity plan, pursuant to the Federal Communications Commission's recent order.⁸ That order required all carriers to file with each state commission a copy of its intraLATA toll dialing parity plan by April 22, 1999.

An additional copy of this filing is enclosed. We ask that it be date-stamped and returned in the envelope provided. Should any questions arise regarding this filing, please do not hesitate to contact the undersigned at (703) 762-5430.

Respectfully submitted,

Carly Tolchin

⁸ In the Matter of the Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, *Order*, CC Docket No. 96-98, NSD File No. 98-121 [rel. March 23, 1999].

TELIGENT, INC.
DIALING PARITY PLAN

I. OBJECTIVE/PURPOSE

In compliance with the Federal Communications Commission's recent intraLATA toll dialing parity order,¹ Teligent, Inc. ("Teligent") files its plan for implementing intraLATA equal access in areas of the State in which it is authorized to provide service. Under the plan, Teligent's customers choose an interexchange carrier ("IXC") from a list of IXCs that are Teligent access customers. The customers' intraLATA toll calls are then routed to the chosen IXC automatically, without the use of access codes.

II. IMPLEMENTATION SCHEDULE

Teligent has already launched service in the State, in accordance with the provisions set forth in this plan.

III. CARRIER SELECTION PROCEDURES

Teligent has implemented a full 2-PIC carrier selection methodology within the State. With the full 2-PIC methodology, Teligent customers are able to presubscribe to one IXC, including Teligent, for interLATA toll calls and to presubscribe to the same or a different IXC for intraLATA toll calls. Teligent has endeavored to contact as many IXCs as possible regarding the opportunity to provide toll service to Teligent customers.

Customers are informed of the opportunity to choose both an intraLATA toll carrier PIC and an interLATA PIC. At the customer's request, Teligent provides a list of IXCs that are available for PIC selection. That list is presented in a competitively neutral manner.

Customers who do not choose an intraLATA toll carrier are identified within Teligent's system as "no-PIC." Until making an affirmative intraLATA toll PIC selection, these customers must dial an access code in order to place intraLATA toll calls
